

Mobile Printer Product Line

	MIP360	MIP3P	MIP3T	MIP3F	MTP4
					
Printer Type	Fixed Vehicle Tractor Feed Printer	Portable Tractor Feed Printer	Fixed Vehicle Tractor Feed Printer	Fixed Vehicle Friction Feed Printer	Direct Thermal Portable Printer
Power Source*	Vehicle Battery (12/24VDC)	Internal Printer Battery, or Vehicle Battery (12/24VDC)	Vehicle Battery (12/24VDC)	Vehicle Battery (12/24VDC)	Internal Printer Battery, or Vehicle Battery (12/24VDC)
Application	For heaviest duty applications, where highest throughput and performance matter most. This printer is derived from an industrial quality mechanism base, and has the highest field MTBF.	For applications requiring portability, this printer may be used in a customer's office, powered by its internal battery, or in a vehicle powered by the vehicle battery.	For medium duty continuous forms applications, where lower print volumes and duty cycle are required. This printer will fit smaller vehicle spaces than the MIP360, when space is an issue.	For medium duty single forms applications, where lower print volumes and duty cycle are required. This printer will fit smaller vehicle spaces than the MIP360, when space is an issue.	For 2" - 4" receipt and label printing where light weight and high portability are required
Print Head Technology	24 Wire - This print head is optimized for highest print quality. Signature reproduction is legible and clear.	9 Wire - This print head is optimized for size and ease of replacement.	9 Wire - This print head is optimized for size and ease of replacement.	9 Wire - This print head is optimized for size and ease of replacement.	203 dpi thermal array
Weight	17.7 lbs	10.0 lbs	5.3 lbs	5.3 lbs	2.0 lbs
Throughput	Rated at 360 characters per second, the MIP360 completes the short one page invoice test in 8.8 seconds. In the ECMA 32 printer test, this unit prints at 313 pages per hour.	Rated at 288 characters per second, the MIP3P completes the short one page invoice test in 13.1 seconds. In the ECMA 32 standardized printer test, this unit prints at 150 pages per hour.	Rated at 288 characters per second, the MIP3T completes the short one page invoice test in 13.1 seconds. In the ECMA 32 standardized printer test, this unit prints at 150 pages per hour.	Rated at 288 characters per second, the MIP3F completes the short one page invoice test in 13.1 seconds. In the ECMA 32 standardized printer test, this unit prints at 150 pages per hour.	3.0 inches per second
Paper/Forms Capability	One to four part continuous forms; the MIP360 can also print on single top or edge glued forms	One to three part continuous forms	One to three part continuous forms	One to three part single forms	Single part direct 2" - 4" thermal paper, continuous fanfold support (optional)

*110V power converters are available for all models
